

Comprehensive Aircraft Management Solutions for Citation Owners

Red Wing Aeroplane Company offers personalized aircraft management solutions for current and potential aircraft owners who want to maximize the benefits of ownership while reducing costs and time spent on coordinating operational details.

PROGRAM PROCESS & EVALUATION

- 1 A thorough inspection by our certified Citation mechanics to determine airworthiness and if maintenance is needed on the aircraft
- 2 Finalize monthly income earned
- 3 Sign the agreement and let us put your aircraft to work for you!

Costs of Operations and Maintenance Savings

(As a large Part 135 Operator)

Insurance Benefits: Low fleet premium rates and broad policy coverage

Protecting Your Asset: Our highly experienced technicians work in a state-of-the-art environment and use detailed oriented protocols to ensure your aircraft is well maintained and remains in the best possible condition to retain value over time

Engine Life Extension Program: The engine of your aircraft may be eligible to enter our service life extension program, which maximizes the engine life and provides considerable costs savings over time

Maximum Coverage: We cover pilot wages, hangar space, all expenses to charter your aircraft, and your personal flying anywhere in the Western Hemisphere for a discounted rate

Call or email us to schedule your aircraft today.
